FDLR PRESS RELEASE N° 2015-010

Unfair trial against leaders of FDLR

The Democratic Liberation Forces of Rwanda (FDLR) express their profound indignation following the wrongful conviction of their leaders Dr Ignace MURWANASHYAKA and Mr Straton MUSONI by the German justice on September 28, 2015 after a highly political trial run at the control of the dictatorship of Kigali.

This trial, which is all but just, had for objective to decapitate the FDLR and therefore it was characterized by appalling irregularities from beginning to end.

We recall that Dr. Ignace MURWANASHYAKA and Mr Straton MUSONI were arrested at the official request of the dictatorial regime of Rwanda during a visit to Kigali of a very high level German authority.

The FDLR urge the German justice to overcome the political orders in the coming appeal trial and that true justice call is made.

Done at Masisi (DRC) on September 30th, 2015.
